Monthly Updates
From the Mayor

September 2026

- Compost is available at the Water Pollution Control Plant for Village residents free of charge. Please call 315-673-4491 to make an appointment for pickup.

- The free pilot Asset Management program through NYSDEC partnered with CDM Smith has been completed for the Plant and its collection system.

- A scraper arm on one of the Secondary Clarifier Tanks at the WPCP broke off last weekend. The repairs needed were outside the DPWs capability. W2O was able to repair and get the tank back in service in a timely matter.

- Fall Newsletter will be sent out to Village Residents this week. Extra copies can be found at the Village Hall, Town Hall, and library.

- Crosswalks have been striped throughout the Village.

- DPW has been trimming trees along the sidewalks and streets in the Village.

- Brush Pickup has started. Brush pick up will take place on Sept 14, Sept 21st and Sept 28th

- Submitted application for 2026 Tree City USA. Tree City USA is a designation given to communities by the Arbor Day Foundation for demonstrating a commitment to community trees and urban forestry programs.

- The first phase of the ADA compliant fishing access to Nine Mile Creek has been completed. This platform at the Green Gateway was designed by MCSD students (from Tyler Cooper's Professional Pathway program) and TDK Engineering and has been completed by Small Town Earthworks & Vitale. Thank you to the Town Highway and Village DPW for assisting with this project. And thank you to Senator May and County Executive Ryan McMahon offices for funding this project.
