

# Updates From the Mayor

## February 2026

**No Parking – November 1st to April 1st** – the public should know as of November 1, there is no parking allowed on any street in the Village of Marcellus from 2 a.m. to 7 a.m. This parking restriction will remain in effect until April 1. If ticketed by Village Police, the fee will be \$35.00. We urge residents to use the Village parking lots for any overnight parking situations.

**Snow Plowing** – a reminder to independent snowplow operators that it is illegal to plow or shovel snow or ice during snow removal operations upon a village sidewalk or other public way. Snow CAN NOT be plowed into the street, nor can the snow be plowed out of a driveway, across the street and into the village right-of-way. The Village is not responsible for snow that accumulates on a resident's property and no snow should be plowed onto a village street or sidewalk, and any that has been, accidentally, must be removed before finishing the job.

**Sidewalks** – Another reminder to Village residents and business owners that the Village DPW plows the sidewalks during snow events but it is the responsibility of the property owner to salt and shovel entrances and walkways in front of their building.

**Olde Home Days, 2026 (June 5, 6, 7)** – the OHD Committee has begun planning for the annual event and more information will be available in the coming weeks. Keep an eye on the Olde Home Days Facebook page for the most up to date information.

**DPW:**

- DPW is preparing for the Onondaga County Planning & Zoning 2026 Symposium, collaborating with the Town and the School District on the Green Gateway project.
- There is currently a regional supply shortage of road salt. The DPW has been implementing salt conservation measures while continuing to maintain safe road conditions.
- The Village has received over 126 inches of snow so far this season, making for a long and demanding winter. We encourage all residents to use caution when traveling during these winter events. Please allow extra time for travel, maintain safe driving distances, and adjust speeds according to road conditions.
- DPW crew is looking ahead to Spring and will begin addressing plow damage to streets and sidewalks as soon as the weather conditions allow.
- The WPCP submitted the Annual Compost Report to the DEC on February 13, 2026.
